

We are pleased to invite you to:

UKCTRF Annual Meeting 2022

Proudly hosted by [Newcastle University](#),

13th -14th September 2022

at the [Urban Sciences Building](#)

The UK Consortium on Turbulent Reacting Flows ([UKCTRF](#), funded by the UK's Engineering and Physical Sciences Research Council ([EPSRC](#))) brings together 40+ experts across 20 UK institutions to enable concerted collaborative fundamental and applied research on turbulent reacting flows utilising the latest advancements of High-Performance Computing (HPC).

The UKCTRF annual meeting in September 2022 (13th -14th September 2022) will be an international conference. It will focus on computational research on turbulent reacting flows, with internationally leading researchers giving plenary lectures.

UKCTRF members and international colleagues are invited to attend the meeting. Please register [here](#) for the conference by the 9th of August, 2022. Abstracts need to be submitted by 31st of July, 2022.

There will be a special conference issue in the journal entitled [Flow, Turbulence and Combustion](#).
